| | 4958 | Royal Arch rebuilt as was magnificent piece of architecture and would bring some history back to Dundee | A |
| | 5034 | A replica Royal Arch built - It is such a shame it was destroyed and with a bid for city of culture and V and A etc A new royal Arch would be a fabulous idea | A |
| | 5141 | The Victoria Arch rebuilt or alternatively an Elizabeth Arch perhaps? | А |
| | 5191 | I'd love to see the Royal Arch reinstated somewhere down at the waterfront. It was a magnificent structure and would look fantastic there again. It should never have been destroyed. Also I think we need an American themed 10 pin bowling alley which is easily accessible to visitors and Dundonians alike. The city's young and old are missing out on this great way of socialising. | A |

| | A waterfront festival, spread along the riverside footpath - could have a Broughty Ferry part and then docks & airport section. Included must be trips on the water (remember the speed boat competition). Also a pre-event for art works, photography and other artistic representations of the river. And finally use the excellent musical talents (singing & playing) of the city's children to perform a specially composed piece of music. | R |

Something similar to the CityCat service which operates in Brisbane, Australia. This would be a great attraction for visitors and would also be a fantastic thing for locals to use day-to-day. The river is our greatest asset, lets use it. | R |

| | Whaling in the Tay! An exhibition and associated events/guided walks explaining the history of whaling in Dundee, and the importance of whale oil to the jute industry. Maybe the Rep could adapt 'Whales for the Wizard' for the stage? | w |
| | A sculpture of a whaling skiff with the crew rowing and harpooning a whale. The whale would generate a large fountain of water. This would be sited in the river - possibly on the rocks just to the east of the road bridge. It would be iconic to have a large fountain in the river and would also celebrate our whaling heritage and the living we have made from the river/port. | w |

| 4723 | A 'Green week' where the city very actively tries to reduce the | |
| | electricity used. Turn off the shop lights after closing time, replace | |
| | their light with solar powered lamps to increase safety (Dundee is | |
| | Scotland's sunniest city, lets make use of it!), have a 'Green fair' in | |
| | the city centre, have people plant fruit trees in public areas and | |
| | allow people to eat the fruit like the Food Forest in Seattle. Each day, | |
| | | |
| | sponsor a different endangered species that's not as well known as | |
| | the Tiger or Panda, something that will surprise, engage and concern | |
| | people. | |
| | | |
| 4758 | Green roofs. Kids and adults would love the chance to get up onto | |
| | some of the flat roofs of the city centre and plant some small plants, | |
| | e.g. throw down grass seeds, wild flowers and mosses. Many of | |
| | these flat roofs are visible from the University's Tower building | |
| | making the view of the city more interesting. Many of the University | |
| | buildings have flat roofs that could be brightened up with some | |
| | | |

| 4762 | I'd like to see a series of "Country Fairs" in City Square where each | |
| | ethnic group in Dundee showcases their language. food, art, culture | |

| | (and perhaps even English!) for starters, there may be others. | |

| 4792 | Magdalen Green with a refurbished playpark and with the bandstand | |
| | repaired and renovated to its former glory. The Green, which is | |
| | Dundees' oldest public park, is in a wonderful location is much loved | |
| | and very well used but it needs capital investment. Last century the | |
| | Green lost its swimming pool, railway station, tennis courts and | |
| | | |
| | bowling green, all it gained was a bit more car park, it's time to put | |
| | something back! | |

| 4836 | A celebration of Dundee's big tees. This could be an online guide to | |
| | where to find the city's most impressive specimen trees and the | |
| | trees could be decorated with ribbons or lights. | |
| | | |
| 4998 | Posters around Edinburgh and Glasgow which tell the great story of | |
| | what Dundee is. Almost nobody in these cities has ever been to | |
| | Dundee, and it would inspire them both to go and visit Dundee, but | |
| | also to aspire for greater things where they live. | |
| | | |
| 5033 | Widespread, large scale, planting of perennial wildflower meadows | |
| | throughout the city, filling waste-ground and roadsides, softening | |
| | the urban landscape and bringing a huge diversity of wildlife right | |
| | into built up areas. Neighbourhood involvement to identify and sow | |
| | neglected areas of ground. Different species mixes in different parts | |
| | of the city. On such a scale, it would set Dundee apart from every | |
| | | |

| | a strong emphasis on the city's highly rated Rep Ensemble, backed | |
| | up by travelling productions and local enthusiasts. | |

| 5049 | A Beano or Dandy character theme 'treasure hunt' event like recent | |
| | Gromit Unleashed event around Bristol. Great way for locals and | |

| | for local charity! | |
| 5051 | Dundee have a pedestrianised cultural guarter, the square at the | |

| | the car park and pedestrianise the whole street, from Park Place to | |
| | | |
| | the Nethergate. Get in quality book shops, small Indy retailers, stuff | |
| | like that, the pubs are there already, where people could just chill | |

| 5055 | Simple Minds kicking off an outdoor Dundee 2017 concert opposite | |
| | the V&A Dundee (with Light Night effects) pumping out | |
| | "Waterfront" | |
| 5073 | Exhibitions put on (with projects linked to local school and | |
| | community participation) about various aspects of Dundee's history | |
| | and archaeology. Involving museums, archaeological organisations | |
| | and heritage trusts and schemes. From Mary Shelley living in Dundee | |
| | in her adolescence; to Arctic Shipbuilding; Whaling; the building of | |
| | the Tay Bridge; DC Thompson; the Mills and Manufacturing, There is | |
| | so much variety in Dundee's heritage that is exemplary of the | |
